I will be out next week on Spring Break with my family. Do you have a document that describes what all is available and involved in the process?

Thanks

Subject: Discussion on potential Superfund Reuse Support at CES

I spoke with Gary this afternoon and he agreed that there is a good opportunity for R6 to utilize Superfund Reuse support tools and technical assistance at the CES site in Houston.

Since the site will soon be entering TCEQ's VCP, Gary requested that we speak with Terry Andrews and Monica Harris at TCEQ about the reuse tools available for evaluating future uses for the site. It's likely an ideal time to begin an structured dialogue with site stakeholders as decisions now on the cleanup could affect (or limit) future uses.

Are you both available to talk with Terry and Monica early next week – perhaps Monday, 3/9?

Thanks,
Casey
